37 CFR Part 1

Patent Interference Proceedings

AGENCY: Patent and Trademark Office, Commerce.

ACTION: Final rule.

SUMMARY: This document amends the regulations governing patent interference proceedings. The amendments are needed, and intended to (1) clarify and more specifically define the matters which may be raised before the Board of Patent Interferences at final hearing; (2) broaden the present requirements relating to printed testimony and briefs at final hearing; and (3) specify the manner in which discovery may be used.

DATES: Effective date: December 31, 1981.

FOR FURTHER INFORMATION CONTACT: Ian A. Calvert, Chairman, Board of Patent Interferences, by telephone at (703) 557-3625, or by mail marked to his attention and addressed to the Commissioner of Patents and Trademarks, Washington, D.C. 20231.

SUPPLEMENTARY INFORMATION: A notice of proposed rulemaking concerning the amendment of 37 CFR 1.225, 1.231, 1.253, 1.254 and 1.258, and the addition of §1.288, was published in the Federal Register on November 25, 1980 (45 FR 78172). Interested persons were requested to submit written comments on or before February 4, 1981. Three comments were received.

One commenter requested that the deadline for comments be extended to April 16, 1981, the date set for comments on another proposal relating to the rules for reexamination and inter partes protest proceedings (46 FR 3162). An extension was not considered necessary, and in any event, no comments concerning the present rules were received after the published deadline.

It was suggested that §1.258(a) should not be amended to specify that a motion under §1.231(a) must be transmitted to the primary examiner in order for the matter raised in the motion to be considered by the Board of Patent Interferences at final hearing. Proposed §1.258(a)(1)(i) was objected to because a decision by the Patent Interference Examiner denying transmission would only be reviewable by petition and not by the Board. Instead of the proposal, it was suggested that §1.258 be amended to require only that a matter have been raised in a motion complying with §1.231(a) and (b) in order to be considered by the Board at final hearing.

This suggestion has not been adopted. As stated in the notice of proposed rulemaking, the proposed changes in §1.258 were not intended to alter the existing practice. The suggestion would change the practice and would, in effect, make the propriety of dismissing a motion under §1.231 reviewable by the Board of Patent Interferences at final hearing. Such a procedure would not be desirable. It would leave unsettled what issues could be raised at final hearing, lead to greater uncertainty during the taking of testimony, and impose an additional burden on the Board.

The suggestion expressed a belief that limiting review of a Patent Interference Examiner's dismissal of a §1.231 motion to review by petition is unsatisfactory. However, in the considerable time during which this procedure has been followed, it has not been found to be unsatisfactory. Whether a motion should be transmitted to the Primary Examiner is a matter that rests largely within the discretion of the Patent Interference Examiner, and any party may by petition challenge a decision of the Patent Interference Examiner to transmit or not to transmit a motion. A decision refusing to transmit a motion is scrutinized more thoroughly on petition than a decision transmitting a motion, "as it is considered desirable to submit all matters raised by motion under 37 CFR 1.231 to the primary examiner for decision on the merits where possible." *Gutman* v. *Beriger,* 200 USPQ 596, 597 (Comr. Pats. & TM, 1978). The rights of the parties are deemed to be adequately protected by limiting review of the transmission or dismissal of a motion under §1.231 to a request for reconsideration and/or petition under §§1.243(d) and 1.244, respectively.

It was also suggested that "and (b)" be inserted after "paragraph (a)" in the first sentence of 37 CFR 1.231(d). This suggestion has been adopted.

One commenter noted that proposed §1.253(e) would apparently prohibit spiral-type bindings, while at the same time requiring the testimony to be bound to lie flat when open. The proposed prohibition against "ring-type bindings" was taken from Rule 5.8(a) of the U.S. Court of Customs and Patent Appeals. It is understood that the Court prohibits such bindings because of the manner in which its records are stored. However, the Patent and Trademark Office stores records in a different manner, and generally prefers spiral-type bindings as the most convenient method of binding the testimony so that it will lie flat when open. Therefore, the sentence "Plastic and metal ring-type bindings are not acceptable" is not being adopted. While it is recognized that the rule will permit bindings which would not be acceptable to the Court, it is considered that the advantages gained by having the testimony and briefs lie flat when they are being reviewed by Patent and Trademark Office personnel and others outweigh any disadvantages which may be caused by the discrepancy between this paragraph and the Court rule.

No adverse comments were received relative to the proposed addition of new §1.288.

Environmental and Other Considerations

These rule changes will not have any significant impact on the quality of the human environment or the conservation of energy resources.

These rule changes will not have a significant adverse economic impact on a substantial number of small entities (Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*).

The Patent and Trademark Office has determined that these rule changes do not constitute a "major rule" as defined in Section 1(b) of Executive Order 12291 (45 FR 13193), since they would benefit parties in interference proceedings and impose no additional burdens on the Office.

Amendment of Regulations

PART 1—RULES OF PRACTICE IN PATENT CASES

In consideration of the comments received, and pursuant to the authority of the Commissioner of Patents and

Trademarks under 35 U.S.C. 6, 37 CFR Part 1 is amended as follows:

1. In §1.225, paragraph (a) is revised to read as follows:

§1.225 Failure of junior party to file statements or to overcome filing date of senior party.

(a) If a junior party to an interference fails to file a preliminary statement, or if his statement fails to overcome the effective filing date of another party, judgment on the record will be entered against that junior party unless:

(1) Under the provisions of §1.258(a), he would be entitled to raise before the Board of Patent Interferences a matter which is ancillary to priority and which, if decided in his favor, would remove the basis for judgment on the record against him, and

(2) Within a time set by the patent interference examiner, not less than 30 days, he requests that final hearing be set to review such matter. If the matter, was raised in a motion which was dismissed for one of the reasons specified in §1.258(a)(1)(iii) the request for final hearing must be accompanied by a motion to take testimony under paragraph (b) of this section.

* * * * *

2. In §1.231, paragraph (d) is revised to read as follows:

§1.231 Motions before the primary examiner.

* * * * *

(d) All proper motions as specified in paragraphs (a) and (b) of this section, or of a similar character, will be transmitted to and considered by the primary examiner without oral argument, except that consideration of a motion to dissolve on a ground other than no interference in fact will be deferred to final hearing before a Board of Patent Interferences where the motion raises a matter which would be reviewable at final hearing under §1.258(a) and such matter is raised against a patentee or has been ruled upon by the Board of Appeals or by a court in ex parte proceedings. Also consideration of a motion to add or remove the names of one or more inventors may be deferred to final hearing if such motion is filed after the times for taking testimony have been set. Requests for reconsideration will not be entertained.

* * * * *

3. In §1.253, paragraph (e) is revised to read as follows:

§1.253 Copies of the testimony.

* * * * *

(e) When the copies of the testimony are submitted in printed form, they may be produced by standard typographic printing or by any process capable of producing a clear black permanent image. All printed matter except on covers must appear in at least 11 point type on opaque, unglazed paper. Margins must be justified. Footnotes may not be printed in type smaller than 9 point. The page size shall be either 7-5/8 by 10-1/4 inches (19.4 by 26 cm.) with type matter 4-1/6 by 7-1/6 inches (10.6 by 18.2 cm.), or 8-1/2 by 11 inches (21.6 by 27.9 cm.) with type matter 6-1/2 by 9-1/2 inches (16.5 by 24.1 cm.). The testimony shall be bound to lie flat when open. Twenty-five additional copies for the United States Court of Customs and Patent Appeals, should appeal be taken, may also be filed; if no appeal be taken, the twenty-five copies will be returned to the party filing the testimony.

* * * * *

4. Section 1.254 is amended by adding the following sentence:

§1.254 Briefs at final hearing.

* * * * *

The board may refuse to accept any brief which has been printed, typewritten, or bound otherwise than in substantial conformity with this section.

5. Section 1.258 is revised to read as follows:

§1.258 Matters considered in determining priority.

(a) In determining priority of invention, the Board of Patent Interferences will consider only priority of invention on the evidence submitted, and matters ancillary thereto. A party shall be entitled to raise a matter which is ancillary to priority only if:

(1) The matter was raised by the party in a motion under §1.231(a), and:

(i) The motion was transmitted to and decided by the primary examiner; or

(ii) consideration of the motion was deferred to final hearing; or

(iii) The motion was dismissed as being based on facts sought to be established by affidavits, declarations or evidence outside of official records and printed publications, or as being based on a ground which would require the taking of testimony; or

(2) The matter was raised by the party in opposition to a motion under §1.231(a) (2), (3), (4) or (5) which was granted over his opposition; or

(3) The party shows good reason why the matter was not raised as specified in paragraphs (a)(1) or (a)(2) of this section.

(b) To prevent manifest injustice the Board of Patent Interferences may in its discretion consider a matter which is ancillary to priority even though it would not otherwise be entitled to consideration under paragraph (a) of this section.

(c) At final hearing between an application and a patent the prior art of record in the patent file may be referred to for the purpose of construing the issue.

6. Section 1.288 is added to read as follows:

§1.288 Use of discovery.

(a) If a party intends to rely upon an admission or upon an answer to an interrogatory, obtained by discovery, the admission or answer may be introduced into evidence by filing, before the closing of the time for taking the testimony of the party (before the time for taking the testimony in chief if such admission or answer is not in rebuttal), a copy of the admission and the request therefor and/or a copy of the interrogatory and its answer, together with a notice of reliance thereon.

(b) A party may not rely upon any other matter obtained by discovery unless it is introduced into evidence pursuant to §§1.271 to 1.286.

Dated: October 5, 1981.
Gerald J. Mossinghoff,
Commissioner of Patents and Trademarks.

Dated: October 10, 1981.

MARKS PUBLISHED FOR OPPOSITION

The following marks are published in compliance with section 12(a) of the Trademark Act of 1946. Applications for the registration of marks in more than one class have been filed as provided in section 30 of said act as amended by Public Law 772, 87th Congress, approved Oct. 9, 1962, 76 Stat. 769. Opposition under section 13 may be filed within thirty days of the date of this publication. See Rules 2.101 to 2.105.

A separate fee of twenty-five dollars for opposing each mark in each class must accompany the opposition.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).
